Designed on the ground, proven in the air

Capability statement

Drones designed, built and operated by one team, at our Ambohibao factory in Antananarivo, Madagascar.

WHO WE ARE

A group founded in 2019, AerialMetric designs, builds, operates and maintains drones in Antananarivo, at its factory in Ambohibao. Since 2019 its drones have flown every day: AerialMetric is one of the few companies worldwide to have sustained daily flight operations for that long. It maintains the drones it builds, its own fleet and its customers' alike, and trains its customers' crews to fly and maintain them.

DATED EVIDENCE

2019
group founded

Since 2019
flights every day

11,000+
operational flights
all drones, cargo and mapping missions, since 2019

ISO 9001
quality management system
ISO 9001:2026 certification in progress

FIVE MISSIONS

Mission	What we do
Mapping, surveying & LiDAR	Orthophotos, elevation models and LiDAR, from small drones to aircraft; any format and reference system, chosen by the client.
Surveillance and observation	Maritime and fisheries surveillance, protected areas, borders and infrastructure, with unarmed drones.
Health logistics	Drone delivery of health products in Madagascar since 2019; medical delivery networks on request.
Drones, training & maintenance	S330 family; training for pilots and maintenance technicians; upkeep of customers' drones.
Engineering & manufacturing	Composites, prototyping, contract manufacturing.

TRACK RECORD

Period	Scope	Client and funders
Since 2019	Drone delivery of health products to health centres, Madagascar	Clients: PSI, WeRobotics, UNFPA, Aviation Sans Frontières. Funders: the Global Fund, USAID, FID (AFD), Gavi.
Since 2018	Aerial surveys by drone and aircraft: orthophotos and elevation models, Madagascar	Clients: WWF, Wildlife Conservation Society, Artelia, Abt Associates.
06/10/2026	Unarmed surveillance system and training, handed over in Antananarivo	Cooperation between France and Madagascar.

QUALITY AND ENTITIES

Quality	Quality management system based on ISO 9001 — ISO 9001:2026 certification in progress. Scope: design, manufacture and operation of drones.
AerialMetric Ltd	Holding company, Mauritius. Company no. C168633 (BRN C19168633).
AirProd SARLU	Design and production, Antananarivo. NIF 4011866526 · STAT 22111 11 2022 0 10799.
AirLog SARLU	Operations, maintenance and training, Antananarivo. NIF 5011866835 · STAT 82110 11 2022 0 10802.
AerialMetric SAS	France, Biarritz. RCS Bayonne 908 565 617.
